## MISSION STATEMENT

SOUTHERN POLYTECHNIC STATE UNIVERSITY

Southern Polytechnic State University is proud to be Georgia's technology university. Our academic, professional, outreach and service programs embrace all aspects of technology, including the practical applied skills (techne) needed to solve today's real-world problems and the theoretical knowledge (logos) necessary to meet tomorrow's challenges. SPSU graduates are well prepared to lead the scientific and economic development of an increasingly complex state, nation, and world.

Our mission is to serve both traditional and non-traditional students at the undergraduate, graduate and continuing education levels; in engineering and engineering technology, the sciences, applied liberal arts, business and professional programs. We work to develop the broader community's intellectual, cultural, economic, and human resources. Facilitated by our innovative faculty, dedicated staff, and supportive campus environment, our learning community empowers SPSU students with the ability and vision to transform the future.

**ARCHITECTURE-PRE NOTE** Admission to SPSU as a Pre-Architecture student does not guarantee admission to the Design Foundation (first year) curriculum nor to the Professional Program. You must be admitted to the University by June 1st and complete a three-week Architecture Workshop that is only offered once per year. In 2008 it will begin July 14th. Admission to the Design Foundation studios is determined by your performance in the Architecture Workshop (DFN 1000). Studios must be taken in sequence; as a result, if you miss one, it will be a year before it is offered again. For further information concerning the required three-week Architecture Workshop and admission to the Design Foundation Curriculum, please call the Architecture Department at 678-915-7253.
